

Wines are always changing; to love wine is to love change and to love conversation about wine. This list is a perpetual work in progress. Just as life, and the world frankly, feel like a work in progress these days. In the last 12 months we have closed, re-opened, and closed again. As we re-open (again) it feels a little more hopeful, dare we say, permanent. To say we are excited to share and talk about these wines with you is an understatement.

Some of the wines on this list are about innovation and some are about tradition. You'll find certain regions are over represented and others under - that will continue to evolve as ours and your excitement about different wines waxes and wanes.

While you are here we hope you will drink delicious wine, eat tasty food, have good conversation, and a few laughs. The pleasure of time spent at the table with friends, or of a nice bottle of wine, is that each is like a mini-vacation - an opportunity to enjoy the moment and forget your worries. We hope your time here provides that.

Forget labels, screw dogma, try new things. Ask questions. Explore. Enjoy.

Take wine seriously, but never too.

Corkage is \$30 per 750ml bottle. Wines brought in that are on our list will not be opened. Corkage will be waived for all bottles over 15 years old.

CHABLIS

Lovers of Chablis rejoice in finding one that is truly titular - that could be nothing else. While made with chardonnay and part of the larger Burgundy region there is something different about Chablis. The eponymous town is 85 miles NW of Dijon, the largest town of the Côte d'Or.

The unique mix of the soil in each vineyard - how much chalky limestone to clay and fossilized seashells - and subtle differences in exposition are what makes each of Chablis vineyards' wines so distinct from the next. The wines that follow are all chardonnay.... all Chablis... and we love them.

SAVOIE

DOMAINE DES ARDOISIÈRES

The historic vineyards of Ardoisières - located in the shadows of Mont Blanc near the Swiss border - have origins that can be traced back to Roman times. However, they had slowly grown fallow over the last century. In 1998 the task began of replanting the steep vineyard sites with local varieties that are farmed biodynamically. They make a few cuvées from 2 different vineyard sites: Cé vins (with soils comprised of decomposed granite and metamorphic rocks) and Saint-Pierre-de-Soucy (which has sedimentary soils with a high proportion of clay) Sunshine in a mountain meadow.

A PORTUGUESE WINE (MORE TO COME....)

Caves São João was founded in the 1920s but by the 1990s it was flourishing. Consumers were looking for wines that provided immediate gratification and the Caves São João wines take years for their acidity to mellow and for their fruit and complexity to truly blossom. This bottle spent most of its life aging in caves beneath the winery in the region of Bairrada which is located in central Portugal and known for its cool-climate and maritime influence. The blend is 40% Maria Gomez, 40% Bical, 15% Cerceal and 5% Rabo de Ovelha. Drinking this wine is a meditative experience. The wine is shockingly bright and fruit forward, but also shows notes of pine, beeswax, mushrooms, dried orchard fruit, acacia, lemon peel, and dried flowers. There is a lot packed into this 750ml package.

DOMESTIC WHITES

OREGON CHARDONNAY

The quality of Willamette Valley Pinot Noir is long established and draws frequent comparisons to Burgundy. However, it has taken a few decades for Burgundy's main white grape, Chardonnay, to join Pinot in the spotlight. Some say that in the past growers had the wrong clones of chard planted, or that the best vineyards and plots were planted to Pinot. The circumstances have changed and many winemakers are devoting as much attention to Chardonnay as their Pinot Noirs - or more! These are some that showcase what Chard can do here.

IN BETWEEN WINES

Rosé and orange wines live in the middle - they aren't quite red or white - so that's where we put them.

Rosé comes from red grapes and incorporates some of the color from the skin, but not enough to qualify as a red wine. Orange wines, also known as skin-contact wines, are simply wines made by leaving the grape skin in contact with the juice from white grapes. The flavor profiles are in a league all of their own displaying structure, tannin and texture. Orange wine may just spark a new fire in your wine game. Ya welcome.

CHANDON DE BRIAILLES

is one of our favorite domaines of the Côte de Beaune, and we are thrilled to offer this special line up of their wines. Established in 1834, herbicide and pesticide free since 1988, organic since 1998, and fully biodynamic since 2005. Claude de Nicolay took over the show from her mother in 1988 and her brother joined in 2001. Together they craft wines of purity. Little new oak is used, often a good % of whole cluster, and always a expressive of each site. These wines are rested and ready to rock.

TEMPERANCE HILL VINEYARD PINOT NOIR

The Temperance Hill Vineyard is located in the center of the Eola-Amity Hills AVA. It is one of the most heralded vineyards in the Willamette Valley. It was first planted in 1981 and has been organically farmed since 1999 by Dai Crisp. The combination of volcanic soils and strong Pacific winds through the the Van Duzer Corridor yield late-ripening fruit and wines that have strong savory aromas and flavors. It is not a small site and many winemakers have tried their hand with Temperance. Here are some favorites.
