

Wines are always changing; to love wine is to love change and to love conversation about wine. This list is a perpetual work in progress. Just as life, and the world frankly, feel like a work in progress these days. Over the last 15 months we have closed, re-opened, and closed again. It now truly feels like a new beginning. To say we are excited to share and talk about these wines with you is an understatement.

Some of the wines on this list are about innovation and some are about tradition. You'll find certain regions are over represented and others under - that will continue to evolve as ours and your excitement about different wines waxes and wanes.

While you are here we hope you will drink delicious wine, eat tasty food, have good conversation, and a few laughs. The pleasure of time spent at the table with friends, or of a nice bottle of wine, is that each is like a mini-vacation - an opportunity to enjoy the moment and forget your worries. We hope your time here provides that.

Forget labels, screw dogma, try new things. Ask questions. Explore. Enjoy.

Take wine seriously, but never too.

Corkage is \$30 per 750ml bottle. Wines brought in that are on our list will not be opened. Corkage will be waived for all bottles over 15 years old.

CHABLIS

Lovers of Chablis rejoice in finding one that is truly titular - that could be nothing else. While made with chardonnay and part of the larger Burgundy region there is something different about Chablis. The eponymous town is 85 miles NW of Dijon, the largest town of the Côte d'Or.

The unique mix of the soil in each vineyard - how much chalky limestone to clay and fossilized seashells - and subtle differences in exposition are what makes each of Chablis vineyards' wines so distinct from the next. The wines that follow are all chardonnay.... all Chablis... and we love them.

DOMAINE DES ARDOISIÈRES

The historic vineyards of Ardoisières - located in the shadows of Mont Blanc near the Swiss border - have origins that can be traced back to Roman times. However, they had slowly grown fallow over the last century. In 1998 the task began of replanting the steep vineyard sites with local varieties that are farmed biodynamically. These wines all fall into the Vin de Allobroges IGP but the intent at Ardoisières is to showcase differences in *terroir* between vineyard sites.

OREGON CHARDONNAY

The quality of Willamette Valley Pinot Noir is long established and draws frequent comparisons to Burgundy. However, it has taken a few decades for Burgundy's main white grape, Chardonnay, to join Pinot in the spotlight. Some say that in the past growers had the wrong clones of chard planted, or that the best vineyards and plots were planted to Pinot. The circumstances have changed and many winemakers are devoting as much attention to Chardonnay as their Pinot Noirs - or more! These are some that showcase what Chard can do here.

IN BETWEEN WINES

Rosé and orange wines live in the middle - they aren't quite red or white - so that's where we put them.

Rosé comes from red grapes and incorporates some of the color from the skin, but not enough to qualify as a red wine. Orange wines, also known as skin-contact wines, are simply wines made by leaving the grape skin in contact with the juice from white grapes. The flavor profiles are in a league all of their own displaying structure, tannin and texture. Orange wine may just spark a new fire in your wine game. Ya welcome.

CHANDON DE BRIAILLES

is one of our favorite domaines of the Côte de Beaune, and we are thrilled to offer this special line up of their wines. Established in 1834, herbicide and pesticide free since 1988, organic since 1998, and fully biodynamic since 2005. Claude de Nicolay took over the show from her mother in 1988 and her brother joined in 2001. Together they craft wines of purity. Little new oak is used, often a good % of whole cluster, and always a expressive of each site. These wines are rested and ready to rock.

MARTIN WOODS WINERY

Winemaker Evan Martin's wines are some of the truest expressions of grape variety, vintage, and terroir that can be found in Oregon (or anywhere, really). Evan is a student of regions like Burgundy and the Loire Valley, but also understands that those wines can't be duplicated here in the Northwest. *Terroir* expression means learning from the old world traditions, but expressing our own place transparently. As part of his quest to produce wines with a uniquely Oregon identity, he uses Oregon oak -a species called garryana- as part of the aging regimen for the wines.
